

PICKUP CABIN DC250R

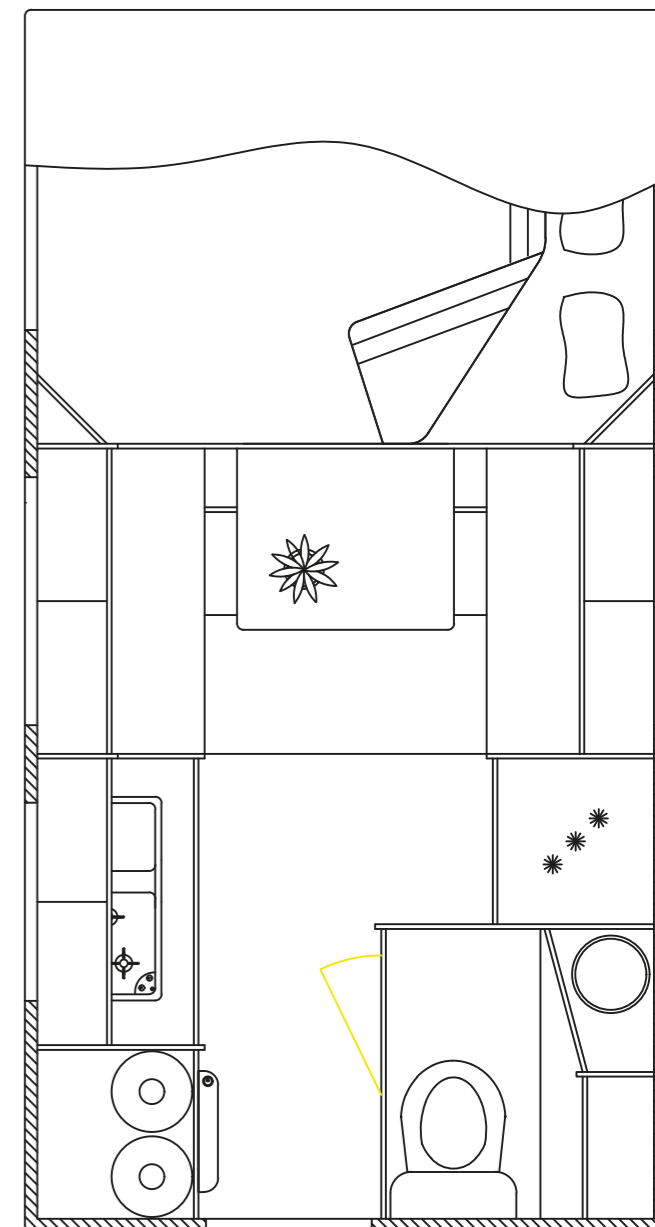

The DC250S is the bigger brother of the DC220R (similar layout) will have more seating space, storage space and a larger kitchen the DC250R guarantees excellent insulation, even during the winter months.

Our customers who choose the DC250R all have in common that they want an active holiday with the possibility to go off road, but they don't want to do concessions in the amount of comfort.

Because of the larger dimensions that the DC250R has it is possible to go on longer holidays and journeys.

The larger kitchen, toilet room and sitting area gives you a very spacious feeling and offers plenty of room for all the necessities.
